Stormwater Management Facility Operation & Maintenance Inspection for Permeable Paving by Owner

Owner Information

Facility Information

Name:	Address:
Address:	Location (i.e. parking lot):
Phone Number:	As-Built Number:
Email:	BMP ID:

☐ Check box if new owner

Last Date of Rain: _____
(date)

Note: Inspection is to be performed annually. Form is to indicate dates of maintenance activities. Inspection should not occur if it has rained in last 3 days

Inspection/Maintenance	Date Maintained or Inspected
Pavement surfaces <u>swept</u> and <u>vacuumed</u> to reduce sediment accumulation and ensure continued surface porosity as frequent as manufacturer recommends. Minimum once per year. Inspect surface for deterioration or spalling. Repair surface to good condition. Washing and compressed air cleaning is not allowed.	
Drainage pipes, inlets, stone edge drains, pretreatment and any other structures draining directly to the stone reservoir cleaned out and inspected for holes, corrosion, cracks, spalling and separation.	
Notes (Include description of repairs completed):

Annual/Triennial Permeable Paving Stormwater Management Facility
Operations and Maintenance Inspection Form Instructions:

The top portion of the form is to be filled in with the relevant information. **One form per facility per inspection**

Owner Information should be filled in with the contact information of the owner of the facility. If the owner is different than the one listed on the letter please check the box.

Facility Information can be obtained from the letter or by contacting the Bureau of Resource Management at (410) 386-2712.

Inspection Information should be completed by the individual completing the inspection.

Permeable Paving

Figure 5.3 Examples of Permeable Pavements

Annual Inspection:

Photos. Attach date stamped photos of the facility to this inspection report. One photo should be an overall showing the location of the permeable paving and one should be a close-up photo of the surface condition. The next should be of the sweeping and vacuuming underway and the last should be of the cleaning of inlets, tanks and pipes as above.

Triennial Inspection:

Carroll County inspectors will perform an inspection of the facility every three years. Owner is responsible for providing copies of this form and associated pictures from the annual inspections when requested.
